FERTILITY CLINIC

EMBRACING LIFE
TOGETHER

Part of MEDICLINIC

WELCOME TO BOURN HALL

Bourn Hall has been providing innovative fertility services in the United Arab Emirates for over a decade. Our unique combination of the British heritage of Bourn Hall, backed by the pedigree of Mediclinic, one of the world's largest private healthcare groups, blended with the expertise of an international group of fertility experts makes for a truly exceptional patient experience. Our state-of-the-art fertility clinics are located in the key UAE cities: Dubai, Abu Dhabi and Al Ain.

Bourn Hall was the first stand-alone fertility centre in the Middle East to receive JCI accreditation

EMBRACING LIFE TOGETHER

We are dedicated to supporting all people to start and grow their families according to their unique circumstances. By combining the latest advancements in reproductive medicine with a compassionate team of experts, we will guide, support and nurture our patients on their fertility journeys.

OUR HERITAGE

Bourn Hall UAE is built on a foundation of over 40 years of experience in IVF technologies and fertility treatments. In 1968, our 'founding fathers', Professor Robert Edwards and Mr Patrick Steptoe embarked on a journey to overcome types of infertility through the use of laparoscopic surgery whereby oocytes, or eggs, were collected and fertilised within a laboratory. This procedure, and the subsequent transfer of embryos, or fertilised eggs/oocytes, was perfected for nearly 10 years until the ground-breaking birth of the world's first IVF baby, Louise Brown in 1978.

Two years later, the pioneers of IVF, Professor Edwards and Mr Steptoe, founded Bourn Hall clinic in Cambridgeshire, UK, where couples could come to seek advice and treatment for infertility. In 2010, Professor Edwards was awarded the Nobel Prize in Physiology and Medicine for the development of in-vitro fertilisation. He was knighted in 2011 for his services to human reproductive biology.

WHAT MAKES US SPECIAL?

- We're pioneers: Bourn Hall led the way in developing the medical techniques for IVF
- Over 40 years of experience in fertility treatment
- Nobel Prize in medicine
- Internationally trained team of clinicians
- First JCI Quality Accredited fertility clinic in the Middle East
- Confidentiality and discretion
- Holistic care: including physical, emotional, and psychological support
- Inhouse Genetics Lab
- Personalised treatment plans: Tailored fertility treatment plans designed to address each individual or couple's specific needs and goals.
- Complete reproductive care: As part of Mediclinic Middle East, we offer all kinds of support to our patients and their family members throughout their fertility journey

FACILITIES

- The IVF Clean Room standards are in line with the EU Tissue Directive, Good Practice Guidelines, DOH and DHA requirements
- Incubators and cryo-storage tanks monitored 24 hours a day, 365 days a year, for temperature and low-level alarms
- ICSI and biopsy rigs are produced by world-renowned brands such as Research Instruments, Nikon and Olympus, and fitted with Narchie Modulations
- Incubators provide the availability for both dry culture and humidified culture when required, and are world-class brands such as ESCO, VitroLife, Origio, Hareus, Ksystems and COOK
- Genetic tests are provided in-house by Mediclinic's precision medicine laboratory
- All quality management systems are in line with JCI, DHA, DOH and ESHRE

On average, Bourn Hall is responsible for over 300 healthy live births per year in the UAE.

TESTIMONIALS

CHOOSING BOURN HALL WAS OUR BEST DECISION!

“Before consulting with Dr. Shazia Magray, our IVF journey had been four years long. When we switched clinics to Bourn Hall, suddenly everything made sense.”

After three rounds of egg retrievals and two transfers, this couple found that their second transfer was successful.

“Dr. Shazia and all the clinic staff were so understanding and attentive to our every need. I felt that Dr. Shazia always had a plan. She made me feel that we would have a child one day.”

“The IVF process was well explained and we knew what to expect at each stage.”

“We now have a beautiful daughter and another embryo safely frozen and stored for the future. This would simply not be possible without the excellent medical team at Bourn Hall Fertility Clinic. We are forever grateful!”

#EmbracingLifeTogether

I COULDN'T ASK FOR MORE AND I COULDN'T TRUST ANYONE ELSE WITH MY ENQUIRIES

"I was nervous and unsure of what the future might hold but Dr. Sajida reviewed my case with a smile across her face. She calmed my thoughts and answered my questions. I remember leaving her office feeling like a weight had been lifted off me.

"I can't thank Dr. Sajida and her team enough."

GRATITUDE KNOWS NO BOUNDS AS OUR DREAM COMES TRUE, THANKS TO YOUR INVALUABLE SUPPORT AND EXPERTISE

"I wanted to let you know that our Bourn Hall baby was born safe and well on 27 May 2020. She is perfect and we are thrilled (and sleep deprived).

Introducing Annabelle born 27 May 2020 at 16:40- weighing 8lb 8oz. We cannot thank you enough for helping us to conceive her and she would not be here without your help. I am sure we are forever grateful."

#EmbracingLifeTogether

DEEP APPRECIATION FOR YOUR UNWAVERING GUIDANCE AND SUPPORT

“We want to thank Bourn Hall Fertility Clinic for their care and ongoing follow-up of our child. Also, we would like to express our gratitude to Dr. Majeed Aloum for his ongoing guidance and support.”

GRATEFUL HEARTS TO THE BOURN HALL TEAM!

“Warm thanks to Dr. Diana and the medical team at Bourn Hall. Your unmatched efforts helped us achieve our parenthood dream!”
